

## To all regular attendees of the Friday Noon Spinal Cord Research Group Seminars

Thanks to those who let me know of scheduling difficulties with the proposed fall program. The biggest change was the cancellation of Sept 26, as the McCrea lab is all heading West for the Neurohike meeting in Jasper and that would have about 1/3 of our group missing for any presentation.

If you have new folks in the lab or others that wish to be added to our list, just let me know. For those of you worried that you are not identified to present – never fear, January and the new year will soon be here, and I will be rotating everyone/lab as I can. We are also a bit heavy on research presentations this fall, and there may be more journal article presentations in the new year.

*Sorry if I am repeating myself, but remember that presenters are responsible for:*

- 1) finding a replacement should they be unable to present.
- 2) prior to the seminar, inform the members of the spinal cord group directly as to the title of the article to be presented and the web address where it can be found.
- 3) setting up their own required audiovisual equipment, including laptop and projector if a Powerpoint presentations is used.

Susan Shefchyk

## Spinal Cord Research Group Weekly Meetings Friday Noon, Physiology Library

MONTH	DATE	LAB	Presenter(s)
Sept	19	Gardiner/Fedirchuk	Dwayne/Kevin
	26 Cancelled	McCrea lab at Neurohike meeting, Jasper	
Oct	3	<i>Journal article</i>	Samit
	10	Fedirchuk	
	17	<i>Journal article</i>	Dominique
	24	Schmidt	
	31	<i>Journal article</i>	Miriam
Nov	7 Cancelled	Society for Neuroscience meeting	
	14	Shefchyk	Karen
	21	Jordan	
	28	McCrea	
Dec	5	<i>Journal article</i>	Katinka
	12	Gardiner	
	19	Shefchyk	Dominique
